

I am Manuel García Cenoz, born in 1966. I studied Medicine at University of Navarra, Pamplona, Spain (1984-1990). I got my MPH in 1992 and my specialization in Preventive Medicine and Public Health in 1994. I obtained my PhD in 2014 with the Thesis entitled "Impact and effectiveness of a varicella vaccination program, with two doses in Navarra, 2006-2012". I have a Postgraduate Certificate in Vaccines (Complutense University of Madrid, 2008) and in Health Services Management (Public University of Navarra, Spain, 1995 and 2019).

Since 2006 I have been working in the Institute of Public Health of Navarra, in the field of the epidemiology and surveillance of the infectious diseases, and the design and evaluation of vaccination programs. Previously, I had worked in Screening Programs and Hospital Management.

Since 2015, I have been Associate Professor in the Department of Health Sciences in the Public University of Navarra.

I am co-author of more than 80 publications and more than 145 presentations to meetings. I have given more than 30 lectures in courses, conferences, seminars. My ORCID number is: 0000-0001-7316-9104.

I have participated in several research projects related with of infectious diseases and vaccine effectiveness, like chickenpox, whooping cough, influenza or rotavirus.
